Jumpstart Training Series

ABO Continuing Education Credit Fulfillment

Each disc of the Jumpstart training series approved by the American Board of Opticianry for four (4) hours of continuing education credits. To receive your CEC for successful completion of a training disc, please follow the instructions below.

INSTRUCTIONS FOR CEC FULFILLMENT:

1. TAKE THE COMPREHENSIVE EXAMINATION

Upon completion of each training disc you will be asked to complete a sixty questions comprehensive examination. A passing score of 80% or greater must be achieved to earn credit for this ABO home-study course.

2. ENTER YOUR PERSONAL INFORMATION

Upon completion of the comprehensive examination, you will be prompted to enter your name and the date of completion.

3. PRINT YOUR CERTIFICATE & COMPREHENSIVE EXAM RESULTS

After you have entered your personal information, please select the "Print" button. If you passed with a score of 80% or greater, both a certificate of achievement and an itemized report of your comprehensive examination results will print.

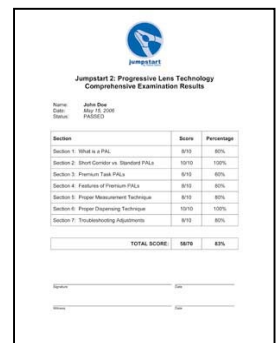

4. WRITE IN YOUR RETURN MAILING ADDRESS

At the bottom of your detailed exam report, please handwrite your return mailing address where you would like your CEC sent. You may write this address anywhere in the blank space on the report.

5. MAKE A COPY FOR YOUR RECORDS

Please be sure to make a copy of these documents to keep on file for your records.

6. MAIL YOUR EXAMINATION RESULTS

Please mail the following documents to: **Innereactive Media, ATTN: CEC Fulfillment, 489 Pettis Ave SE, Ada, MI 49301.**

- a. Printed Certificate of Achievement
- b. Comprehensive Examination Results
- c. Handwritten Return address for CEC on Examination Results

7. CEC FULFILLMENT

For each submission received, a CEC for four (4) hours of continuing education credits will be mailed directly to the return address written on the Comprehensive Examination Results page within 2-4 weeks. For questions on the status of your credits, please call 616.682.9370.

FOR MORE INFORMATION: Please call your independent optical laboratory.
